

# After The Hype

Make Your First Affiliate Commissions Tomorrow

Follow These Instructions 📌

Hi, for those of you who don't know who I am, here's my quick bio.

My name is Mark Bishop, I'm a semi-retired digital marketing veteran who started out as an unqualified construction worker, switched mindset aged 43 & made 💰 **\$4.9M+ online..**

I'll tell you this bit so you'll know that..

**You don't have to settle for 'What If'**

..And **You CAN 'Get What You Want' Starting Today.**

In 1983 (when I left school) the general consensus, or to be more precise, **my school's opinion of me, was that I'd never amount to anything.** And for the next 28 years they were correct.

No qualifications, & un-diagnosed dyslexia (un-diagnosed because it wasn't a thing back then) meant poorly paid construction jobs for the next 28 years, when at the age of 43 everything changed.

## What Changed?

One video changed my mindset - I made my first \$11.50 affiliate commission 4 days later, and..

**\$4,985,366.00 over the next 15 years.**

**How?** In 2011 after watching that video I became a digital marketer focusing mainly on affiliate marketing.

Essentially I got paid affiliate commission (sales %) for recommending, promoting, or referring other people's digital products.

*I.e. I talk about product XYZ - the interested party clicks my link and buys product XYZ & **I get 50% of everything they spend.***

..And 50% of multiple purchases totalling 100s sometimes even 1000s of dollars changes things pretty quickly.

So for the last 15 years I've been an affiliate marketer, I've also developed and sold my own products, taught, **& even coached people who've gone on to make millions..** And it's been amazing - life changing even!

## **So Why Am I Giving It Up?**

Well because at 59 I want to semi-retire.

What I didn't say, and what very few other successful digital marketers will tell you is this:

### **It wasn't all easy..**

Creating & selling products, and coaching people is **insanely profitable**, but it's also very hard work.

To quote a phrase often used by digital marketers, myself included:

***'I Make 1000s of Dollars While I Sleep'***

And I often do..

The trouble is - to make 1000s while I sleep I probably worked 14 hours a day for a solid month or more first.

And at my age, after 15 years..

**That's too much work & too much stress.**

These days I prefer taking my dog for long walks on the beach, renovating the house I recently purchased, spending time with my family, and generally doing whatever I want.

So now **I work 1 - 3 hours a day, 2 - 3 days a week instead.** Because that's all it takes to **make anything from 4k to 16k per month.** Not just for me, but for anyone who does what I'm about to show you.

*\*I could make a lot more, and so can you, but like I just said, I want to take things easy from now on.*

**So Here's The Part That Benefits You.**

**Q. Would You Like To Copy Me?**

**1-3 Hours A Day,** For 2 Or 3 Days A Week Is What It Takes.

Could YOU spare that time if it meant you could **make 1000s of extra dollars each month?**

**Of Course - You Want To Say YES!**

**However, before you do that,** let me just say that even though what I'm going to show you is very easy, it's not without some effort on your part. If you decide to do what I show you, you WILL have to do a little work during those 1 to 3 hours, and to keep the money rolling in you'll need to be consistent.

**Note:** This isn't push button nonsense, it isn't for dreamers, and it isn't for anyone who can't or won't follow simple instructions.

This is a genuine online income model, and as I'm sure you know - there is **No Reward Without Effort.**

Now - let me tell you how, and why the process I'll show you works, starting with..

# Lesson 1

## The Secret Ingredient

I use the word 'Secret' because it draws attention, but as this is **'After The Hype'** let me clarify what I actually mean.

I'm not really talking about a secret as such, what I'm actually going to tell you is common sense, something that should be obvious but often isn't. Most people don't see it, skip it, gloss over it, or just choose to ignore it.

The Secret Ingredient is to focus on **One Thing**.  
So lesson 1 is avoid deviating from the One Thing Rule

Let me explain why this is an important lesson.  
Amongst other things I've been an affiliate marketer for the last 15 years, I've made a lot of money, and yet I realise now that I also made lots of mistakes.

I didn't stick to the One Thing Rule, I promoted everything.  
I promoted product after product because I thought it would make me more money, and it did make me a lot of money.

But if I'd stuck to the rule I could have made the same, or more without confusing or alienating my audience.

### **For example:**

*If I recommend an income opportunity / digital product to you today, and then recommend a different product in 3 days time, followed by another product next week.. you'll be confused.*

You'll start to wonder:

- Which product is best?
- Which product should I focus on?

And eventually you'll stop listening to my recommendations, which is understandable.

## **Compounding.**

Another powerful point to the **One Thing Rule** is compounding. If everything you do is focused on that One Thing, then everything you create, do, talk about from this day forward has the potential to make you money. And the longer you do it - the more you stand to make.

When you do this everything stops being a chore, it stops feeling like work, and eventually becomes second nature, or easy.

***Does that make sense?***

## **Lesson 2**

Now that you understand the One Thing Rule you have to decide on the one thing you're going to focus on.

You could take your understanding of the rule and apply it to anything online.

What I've done, and highly recommend you do too is to apply the rule to one product as an affiliate marketer.

***i.e. You'll be an affiliate that always focuses on one product.***

That way you get paid commission without needing to build anything, hire staff, outsource, or worry about support. And every second of effort you pour into this will compound your future results.

***So which product did I choose?***

I chose [AI Cash Machines](#) (not the greatest 'no hype' name I grant you), but believe me when I say this product is truly outstanding..

I chose this product for a number of reasons.

1. It's been around for over a decade (it's had some name changes and upgrades).
2. It's always supported, and constantly updated, which is very important if you focus on one thing.
3. It has thousands of students - some of which I know personally, or as FB friends.
4. It has more success stories than anything else.
5. What it teaches is second to none, easy to understand and simple to implement from scratch without a list, and without experience.

Here's a fact relating to #5 which I probably shouldn't mention, but will. I joined their free group looking for ideas I could 'borrow' for one of my own products.

However, when I saw how good it was I forgot my initial reason for checking it out, and became part of their movement straight away. Better still, **I made money from it the very next day.**

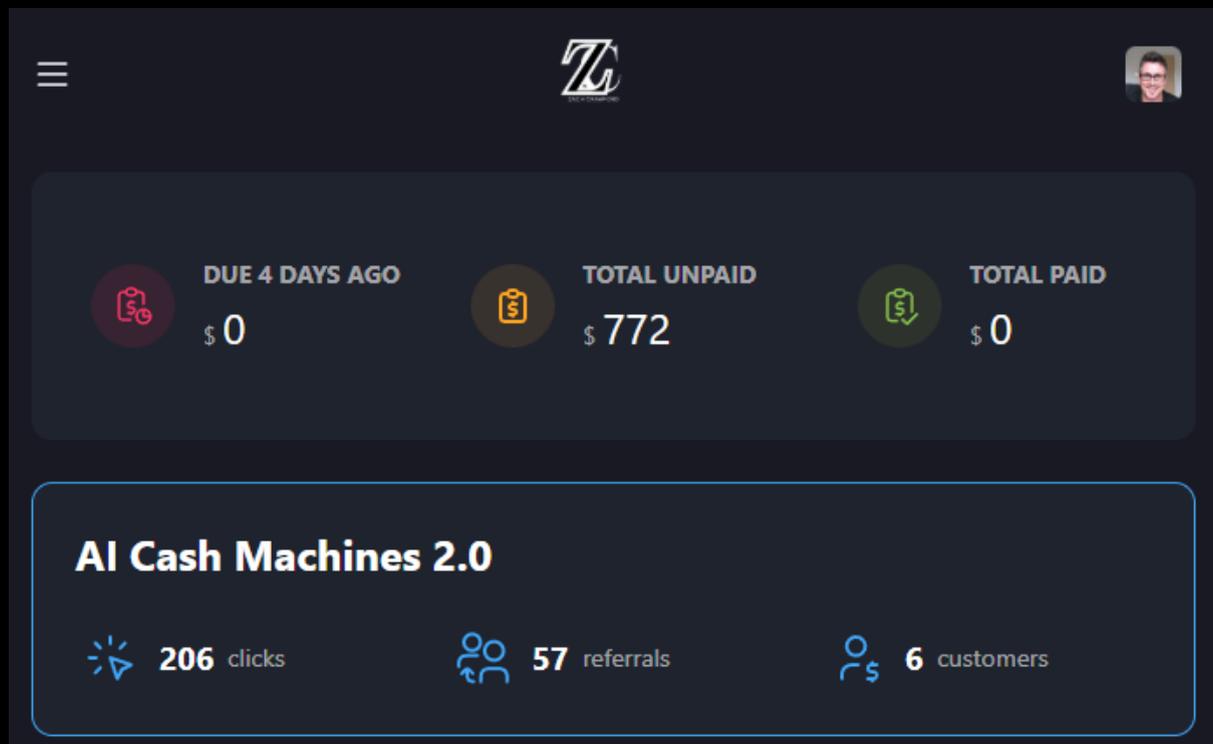

## **6. It's Free to join.**

**Yes I did say free** - You [join for free](#) so you can check out the process, see how it works, watch the training videos, and go through students' results. Then, if you like what they show you, as I did then you can join the AI Cash Machines system for \$27.

Wait.. This sounds like another pitch, another \$27 product like all the others, which promises a lot and delivers nothing, doesn't it? But it's not - **This is without doubt the best product I've purchased including those I've spent 1000s on.**

Why, because it teaches you everything, it's designed for everyone from beginners, right through to seasoned marketers like me. And because commission levels aren't locked depending on what you paid. **I paid \$27 and that One Off payment means I can receive \$1000 commission payments.**

**In fact the \$27 I paid a few days ago has already made me \$772**

Not only was this the best \$27 I ever spent, but this is the easiest money I ever made.
